Names for God Domino Game

Hallowed by Thy Name

Here's a game to play to help your children think about the character of God and ways they might refer to God in their personal prayers.

To Get Started:

- Print the dominos from the pdf provided. If you have many family members playing, print two copies of each page.
- Cut the dominos apart noting that each domino has two squares (two names for God are on each domino card).
- Turn all the dominos (your reserve pile) over so you can't see the pictures or words.

The Game:

- Each player takes 4-7 dominos from the pile (number you take depends on number of people playing.)
- Turn one domino over from the reserve pile and place it in your playing area.
- The youngest player goes first, playing a domino that matches one of the other names for God shown on that first domino. Play continues youngest to oldest with each person matching a domino to another on the playing field.
    - Reminder that matches can be placed on three sides of the domino end that they match.
- After your turn at playing a domino, you may pick up one from the reserve pile.
- If you don't have a match, you are skipped and the next person goes.
- Play until all the dominos have been used.

To Go Further:

As a family, brainstorm names for God that have meaning for you. Make your own dominos with those names to add to your game.
